SUMMARY

I'm currently a student at Medi-Caps University in Indore, focusing on securing a software engineering position. With a proactive problem-solving approach, a positive outlook, and unwavering determination, I am enthusiastic about contributing to pioneering projects. I strongly believe in the pivotal role of ongoing learning for both personal and professional advancement, always prepared to embrace novel skills and information in this journey of continuous growth.

EDUCATION

2021 - present	B.tech(CSE) at **Medi-Caps University,Indore**	(CGPA: 7.1/10.0)
2021	Polytechnic Diploma	(CGPA: 7.5/10.0)
2017	Class 10th MP-Board	(77)

SKILLS

Languages	Java
Technical skills	HTML , CSS, SQL ,Javascript
Databases	MySQL
Dev tools	VScode, Git, Github

TRAINING AND CERTIFICATIONS

JAVA Certification   14 Feb - 05 May 2022

- Completed a comprehensive Java certification program at Universal Informatics Institute, covering foundational concepts of Java programming. Acquired proficiency in essential Java syntax, data types, and control structures. Developed a strong grasp of Object-Oriented Programming (OOP) principles, including encapsulation, inheritance, and polymorphism. The program equipped me with the skills to design and implement robust, scalable Java applications.

PROJECTS

ATM System

- Developed an ATM System as part of a hands-on project, showcasing strong programming and system design skills. Designed and implemented a user-friendly interface to simulate real-world ATM transactions, including account balance inquiries, fund transfers, and cash withdrawals. Implemented robust security features to ensure the confidentiality and integrity of user data. This project not only honed technical proficiency but also demonstrated the ability to create practical solutions for real-world scenarios.

To-Do List website

- To-Do List website helps to stay organized and manage our tasks efficiently. We can add, edit, and remove tasks, keeping track of our progress in real-time. I developed this website Using front end technology HTML ,CSS.The website allows you to prioritize tasks, mark them as complete, and maintain an organized list of pending activities..
